SUMMARY

Bilingual junior software developer who specializes in digital trends. Detail-oriented and enjoys problem solving from unique angles. Highly adaptable team player who knows when to take direction and self start.

SKILLS SUMMARY

Programming: C#, HTML, CSS, JavaScript, SQL   Frameworks: .NET, EF, Bootstrap
IDE: Visual Studio   OS: Windows XP-10, Mac OS X, Android, iOS
Databases: MS SQL Server   Version Control: Azure DevOps, GitHub
Paradigms: MVC, Web Forms, Single Page   Methodology: Agile/SCRUM
Creative: Photoshop, Premiere Pro, After Effects   Business Domains: XR, Marketing, Education

PROGRAMMING EXPERIENCE

• **ASP.NET MVC** - Worked on a team to help develop a web application for a client. Used Azure DevOps as VCS and adjusted the database for back end issues as well dealing with front end matters like UI and UX aspects;

• **Database First MVC -** Developed an MVC web application that took a user's information and generated car insurance quotes that admin could later review

• **SQL Server** - Made a relational database for a library system cataloguing borrowers, books, authors, publishers, as well as branches and their inventories

• **HTML/CSS/JavaScript/JQuery -** Created an online TicTacToe game and a basic portfolio website

WORK EXPERIENCE

EXECUTIVE MANAGER - Zengalt Inc   2018 - 2019 - Bellevue, WA
  • Support business development by doing market research and pursuing potential clientele and partners.
  • Copywriter and proofreader for marketing materials and contracts.
  • Pitch ideas for potential Mixed Reality projects and edit promotional videos.

PRODUCT MANAGER - GND Organic LLC   2018 - Renton, WA
  • Communicated with the manufacturers of GND Organic's product
  • Managed marketing and advertising of products via Social Media and website and Amazon

LEAP MENTOR - Cheng Yin Private Academy   2016 - 2018 - Remote
  • Provided students with essay feedback, interviews, and general or specialized advice.
  • Kept in close contact with students via Skype and email.
  • Keep track and schedule students' progress to their goals.

EDUCATION

THE TECH ACADEMY - C# and .NET Framework   2019 - 2020 - Remote
  A coding bootcamp that teaches via hands-on experience. Divided into many courses, each course trained me in a different subject: HTML, CSS, JavaScript, Database and SQL, C#, version control, and even project management. By the end, I completed an assortment of projects involving MVC, Entity Framework, and a sprint for a Live Project on Azure DevOps in an Agile/SCRUM environment.

NEW YORK UNIVERSITY - Tisch School of Arts (2011-2015)   2009 -2015 - New York, NY
  B.F.A. in Undergraduate Film & TV
  Honors: Trustee Scholarship; Honors Scholar
